oriel cric gallery

INFORMATION

The *oriel cric gallery* is part of the Crickhowell Resource and Information Centre. It is managed and run by the Charity who own and occupy the building.

It is the policy of the curating committee to have regular, high quality changing exhibitions which include the work of local, as well as visiting artists and crafts people. The gallery has shown significant growth since its opening in September 2006 and is gaining a reputation as a venue for Welsh art and craft of exceptional quality.

Artists and makers are encouraged to contact CRiC by completing an application form. The curating committee needs to view examples of work before committing to include work in an exhibition to make sure that it fits in with the theme and context of the exhibitions that are being planned.

An annual programme of exhibitions is planned in advance and each exhibition promoted as widely as possible. Two launch events are held annually. Other promotional events are however held wherever possible.

The gallery is fully accessible and is open daily. It is staffed by volunteers who offer a warm welcome to visitors.

The application form is attached herewith.
